

EMERALD CITY COMPUTER SOLUTIONS, INC.

NO CHARGE - FREE INTERNET

To download No Charge dialer: <http://www.nocharge.com/connect.htm>

The new dialer contains the most comprehensive list of numbers NoCharge.com has to offer!

Important Note:

Access is free in the local calling area. If you are calling from outside your local calling area, it's just a regular long distance call to the nearest connection.

Windows 95/NT/2000 Users:

Download Instructions:

A File Download window will prompt you to begin downloading the NoCharge.com Software. Select "Save this program to disk" and click okay. A "Save As" window will ask you where on your computer you would like to save the file. We suggest saving the file to your desktop or c:/temp. Click Okay.

Be patient, it might take a few minutes to download the NoCharge.com Software. When the download is complete locate the file, nocharge.exe, double click on the file to install the NoCharge.com Software. If you can't find or have forgotten where you saved the file, run a search for the file named "nocharge.exe". After double clicking on the file simply follow the instructions to install.

Once the software is installed, double click on the NoCharge.com icon.

When the NoCharge connection manager window opens, enter your username: **guest** and your password: **password**. Next click on the "settings" button and then on "phone book". When the phone book window opens, select the number nearest to your location. Once you have selected a number click "okay" and "okay" once more. You are now ready to connect to NoCharge.com. Click on the "Connect" button. It is truly that simple!

Macintosh/Linux/UNIX Users:

All you have to do to get Free Internet Access is establish a PPP connection, using one of the numbers in the right hand column.

Username: guest

Password: password

DNS Servers:

Primary: 64.40.40.51

Secondary: 209.102.96.10

When the NoCharge connection manager window opens, enter your username and password. Next click on the "settings" button and then on "phone book". When the phone book window opens, select the number nearest to your location. Once you have selected a number click "okay" and "okay" once more. You are now ready to connect to NoCharge.com. Click on the "Connect" button. It is truly that simple!

If you'd rather not download the software, you are welcome to set up your own connection. Step by step instructions are listed below.

1. Click Start on the menu bar
2. Click on Programs
3. Click on Accessories
4. Select Dial-up Networking
5. The Make New Connection wizard will open, type in "NoCharge.com" (without quotes) as the name of the computer you will be dialing.
6. Click Next.
7. Follow the instruction in the Make New Connection wizard. When asked for the phone number, enter one of the numbers listed in the right hand column.
8. Select NoCharge.com and click Dial
9. Enter your username: **guest** and password: **password**

DNS Servers:

Primary: 64.40.40.51

Secondary: 209.102.96.10

Important Disclaimer:

Due to spamming that erupted after allowing SMTP Mail Servers to be used while connected to Nocharge, we have been forced once again to block the use of SMTP Mail Servers while connected to NoCharge.com.

We do apologize to those users most affected by this change in plans.

Important Disclaimer:

Before choosing a dialup connection number, please check with your local phone company to make sure the number you are dialing is in fact a local call. If the number is not in your local dialing area you could incur long distance charges. In some cases no additional numbers are necessary to dial a long distance number; checking with your phone company prior to connection is advised.
